V7 2.4GHZ WIRELESS LASER MOUSE W/ NANO RECEIVER

The V7 2.4GHZ wireless laser mouse features High Definition Laser Technology for ultra precision, responsiveness and smooth tracking. With its contoured shape, soft rubberized handy controls, this full-sized, wireless laser mouse delivers the comfort and control you need to do more, more easily while reducing hand and arm movement strain. The V7 wireless laser mouse four-way tilt wheel provides additional comfort and efficiency while browsing through spreadsheets and viewing photographs.

The two side buttons can be re-programed to the same functions of left/right buttons on mouse. On the desk or on the go, the V7 wireless laser mouse features a plug in, snap-in storable nano receiver when you're ready to work or snap it into the mouse when you travel. An LED battery status indicator tells you when your battery is running low eliminating surprises.
